

*If it has anything to do with cores,  
it has everything to do with us.*

**CoreTech**<sup>®</sup>  
International

The official OEM for **CoreTech**<sup>®</sup> inc.  
*parts, service and machines*

## **CoreTech Certified Blades**

*Are your core cutter blades certified?*

Safety comes first with CoreTech certified blades. Imitation blades have been known to chip, crack, or even shatter creating an unsafe work environment for operators. Not only do CoreTech certified blades offer safety, they also enhance the burr-free cut quality. Order your certified blades today for immediate delivery.

*Are your certified blades dull?*

CoreTech offers a sharpening program for all certified blades. These high-quality blades were engineered for repeated use and multiple sharpening cycles. Enroll today to save money and minimize waste.

*Contact us today  
to order certified blades  
and enroll in our  
sharpening program.*
